July 29, 2022

To Our Donor Family Partners:

Thank you for your generous and continued commitment to *tikkun olam* in Los Angeles, across the country and in Israel. As a member of our donor family, your involvement helps support The Foundation's grantmaking, and we are delighted to announce this year's recipients of our 2022 General Community Grants.

In late June, our Board of Trustees approved [\\$1 million in General Community Grants](#) to five impressive organizations working to alleviate older adult poverty in Los Angeles. Each organization will receive a \$200,000 grant to support low-income older adults and to help ensure that they can age with dignity by providing access to food, healthcare, housing, and supportive care.

We award [General Community Grants](#) annually to focus on a high-priority concern in our city. Our Board of Trustees identified older adult poverty as a critical need, which has become more pronounced due to the COVID-19 pandemic, rent increases, and rising inflation that have pushed many low-income seniors further to the margins. Most importantly, Jewish tradition instructs us to respect and safeguard our elders, and we are proud that our grants this year are addressing this pressing issue.

These substantial Foundation grants are possible because you are part of our family. A portion of the fee associated with each charitable fund helps enable these grants – and all of our grants – making you our vital partner in this endeavor.

By working together, we are making a powerful difference in thousands of lives, ensuring a thriving and equitable world for generations to come.

With our continued gratitude and best wishes for you and your families for a safe and enjoyable summer,

Evan Schlessinger  
Chair
